

Citrix Receiver is an outdated version of Citrix and is no longer recommended for use, as it is likely incompatible or may not function properly.

The image shows a screenshot of the 'Citrix Receiver' application window. The title bar at the top reads 'Citrix Receiver' with a close button (X) on the right. The main content area has the heading 'Add Account' in bold. Below this, there is a text prompt: 'Enter your work email or server address provided by your IT department:'. Underneath the prompt is a single-line text input field. At the bottom of the window, there is a checkbox labeled 'Do not show this window automatically at logon.' and two buttons: 'Add' and 'Close'.

**Add Account**

Enter your work email or server address provided by your IT department:

☐ Do not show this window automatically at logon.
