

Is Your Computer Running Slow?

FREE 15-POINT PC HEALTH CHECK

Just like your car needs routine maintenance, your computer performs best when it's regularly updated and maintained.

A DAS technician can remotely:

- ✓ Install Windows updates
- ✓ Update drivers
- ✓ Check for common performance issues
- ✓ Improve overall system performance

Many slow computers need a tune-up—not a replacement.

Don't wait until your computer breaks down. Prevent problems with a free DAS PC Tune-Up.

Getting Help Is Easier Than You Think

One of the most common questions I hear is:

"My computer is really slow. Can someone take a look?"

The answer is **yes!**

Simply submit a **DAS IT Support Request**, and a Help Desk technician will review your request and provide remote assistance whenever possible.

Submit your request here: [New IT Request Form](#).
