

# ANKER DOCKING STATION - QUICK FIX GUIDE

2 simple steps to get your dock working

**i** Most issues are fixed by doing these 2 simple steps.

1

TURN IT ON

## Press the Power Button

The power button is easy to miss. Press it once to turn on the dock.

- ✓ Look for the LED light to turn ON.

2

USE THE RIGHT USB-C PORT

## Connect to the Right USB-C Port

There are 2 USB-C ports. Use the one with the  (Laptop + Power) icon.

- ✓ This port connects your laptop and powers the dock.

## Still not working?

Try these:

- Check that the USB-C cable is fully inserted
- Try a different USB-C cable
- Restart your laptop
- Visit: [anker.com/support](https://anker.com/support)

## Done!

Your dock should now be ON and connected properly.
