

Imprivata –Card for Computer Login

(This is **not** for prescribing controlled substances.)

The image shows a digital interface for Imprivata's touchless card login. On the left, a red arrow points to the text "Secure login". In the center, a diagram shows a proximity card being tapped, with the text "Tap proximity card" and "network user..." below it. On the right, the Imprivata logo is displayed above the text "The Imprivata OneSign® Experience". Below this, it states "Imprivata OneSign remembers your usernames and passwords to automatically and securely access:" followed by a bulleted list: "Applications", "Workstations", "Desktops", and "and more". At the bottom right, it says "Imprivata OneSign empowers you to focus on what's most important: your patients." and "Computer: D12391". A "Menu" button is visible in the bottom left corner of the interface.

If you use an exam room, you are already enrolled in Imprivata. Not all Departments have this.

When you are ready to obtain your Imprivata badge/card, please submit a DAS ticket to schedule a deployment time. Include the following information:

- Your location and department
- The best times to meet to receive your card
- Please note that the badge issuance process takes more than five minutes
- If you are at another site, please indicate this in your ticket

Why submit a DAS ticket instead of an email?

When you submit a ticket, I receive an immediate notification in my Teams app from the Help Desk, allowing me to respond more quickly.

If you send an email instead, I may not see it for several hours, which can delay assistance.

Other Ways to Obtain a Card: Plan ahead, arrive early, and stop by the IT office if staff are available. We are located on the 2nd floor, next to the Acupuncture Department at Shotwell. Or call the IT office.

This request is only for standard Imprivata **computer** access and is **NOT** related to Imprivata EPCS or prescribing controlled substances **via Mobile Device**.
